

Asphalt Roofing Felt

MERILY WATERPROOFING

Export Supply for Importers and Distributors

10+ Years of Export Experience | 100+ Containers Annually

Merily supplies paper-based asphalt roofing felt to the Middle East, Southeast Asia and Africa. Our product is made from absorbent base paper impregnated and coated with petroleum asphalt, with a release-treated surface.

Made for Your Market

Choose roll length, weight, printed labels and packaging for your distribution needs. We supply bulk orders with container loading and export documentation support.

For auxiliary roofing waterproofing, building damp-proofing and protective separation. Store rolls upright in a dry, shaded area and protect them from damage.

Send your roll size, weight, quantity, packaging requirements and destination port.
